Education

Kalinga Institute of Industrial College

B.Tech (CGPA: 8.38)

Aug 2024 – May 2028

CSE (AI-ML)

Experience

Swastik Agency

HouseHusband | Python

Jan 2024 – Present

onsite

- * made best cookies in the world.
- * made icereams.
- * learnt gardening and became vegetarian.

Tech Corp

Junior Engineer | Artificial Intelligence (AI), Software Infrastructure

2022 – Present

Hybrid

- * Developed and maintained web applications utilizing React, contributing to front-end development initiatives.

Projects

Competitive Programming Ally | ([GitHub](#)) | *Java, Java Swing, File I/O*

you can do codeforces here it self

- * Developed a specialized IDE for competitive programming that automates the process of fetching and testing sample test cases.
- * Implemented a custom testing engine for real-time output comparison, significantly reducing debugging time during contests.
- * Designed a streamlined user interface using Java Swing to minimize context switching and improve coding efficiency.

Technical Skills

Artificial Intelligence: LLMsLLMs

Programming Languages: JavaScript, TypeScript, JAVA, Python

Software and Tools: Git, GitHub

Web Frameworks: React.js, Next.js, Vite.js

Achievements

Secured 2nd place in the SDIS Competitive Programming Contest, winning a cash prize of ₹5,000
