9b.himanshisaxena@gmail.com · +91 7307132194 · [Codeforces](#) · [GitHub](#) · [Linkedin](#)

Education

Kalinga Institute of Industrial College

B.Tech

Relevant Coursework: CSE (AI-ML)

Aug 2024 – May 2028

GPA: 8.54

Experience

IoT Lab Society

Embedded & IoT Engineer

Aug 2025 – Present

CSS, HTML, Arduino-IDE

1. *Designed and developed IoT-based systems integrating sensors, microcontrollers (ESP32 / Raspberry Pi), and*
2. *cloud platforms for real-time data acquisition and monitoring.*
3. *Played a key role in executing multiple IoT projects, helping improve overall project completion rate by 30%*
4. *through efficient hardware debugging and team coordination.*
5. *Managed sensor data processing and visualization, improving system efficiency and accuracy through optimized*
6. *code and structured workflows.*
7. *First point*
8. *Second point Extra line*

GeeksForGeeks, KIIT

Competitive Programmer

Dec 2025 – Present

JAVA

- Collaborated with a team of 10 programmers to build advanced problem-solving strategies for contests.
- Volunteered in a Competitive Programming Hackathon supporting 100+ participants.
- Mastered 300+ CP challenges on Codeforces and AtCoder.

Projects

ECG Monitoring System

[C++, CSS, HTML, JavaScript]

*This is a **bold** project description with italic words.*

- Integrated an ECG sensor module with ESP32 to capture and preprocess ECG data, enabling continuous cardiac monitoring.
- Reduced data transmission latency by 25% using lightweight MQTT publishsubscribe communication.
- Enabled 100% remote access to ECG data through a web-based visualization interface.
- Improved system stability by 20% via optimized message handling and ESP32 configuration

Skills

Concepts: Data-Structure and Algorithms, Objective Oriented Programming

Frameworks: Flask

Languages: JAVA, C, Python, JavaScript

Technologies: Antigravity, VSCode, Git, GitHub, TinaTi, KiCad

Certifications

AWS Cloud Practitioner Amazon Web Services

Mar 2024

Focused on AWS core services and cloud security best practices.

Achievements

- Ranked top 1% in national programming competition.
- Won **first** place in Hackathon
